

10x CORE POINTS

WHAT DO ATTORNEYS, LAW FIRMS WANT FROM ARTIFICIAL INTELLIGENCE

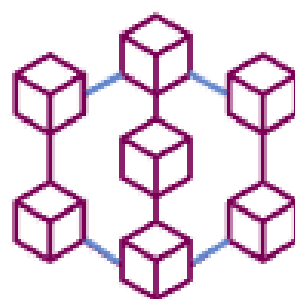

“The Future of Law: How Embracing Artificial
Intelligence can Give Attorneys a Competitive Edge”

.01

IMPROVED EFFICIENCY

Law firms and Attorneys are looking for AI to automate repetitive tasks and **streamline workflows, reducing** the amount of **time** spent on manual tasks

.02

BETTER RESEARCH

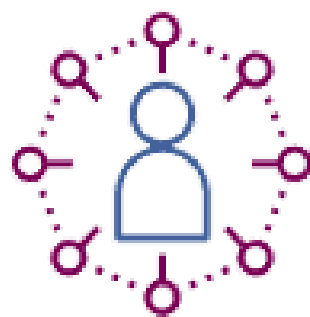

AI can assist in legal research by quickly
analysing large amounts of data and
concisely presenting relevant information

.03

INCREASED ACCURACY

AI can help reduce the risk of human error by automating routine tasks and providing more accurate results

.04

IMPROVED COLLABORATION

AI can facilitate collaboration between different departments and attorneys by providing a **centralised platform** for sharing information and work.

.05

PREDICTIVE ANALYTICS

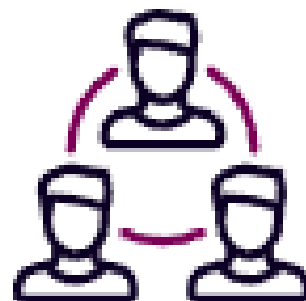

AI can help Law Firms and Attorneys anticipate the outcome of legal cases and make informed decisions.

.06

ENHANCED CLIENT ENGAGEMENT

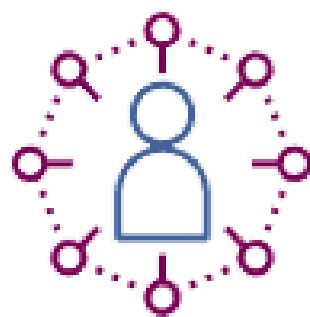

AI can help Law Firms and Attorneys **engage with clients more personalised**, and effectively, delivering accurate data, information in shorter times, hence improving the overall client experience

.07

IMPROVED KNOWLEDGE MANAGEMENT

AI can help Law Firms and Attorneys manage their knowledge more effectively by centralising all repositories, and organising and categorising information and providing **quick access to relevant data**

.08

BETTER CASE MANAGEMENT

AI can help law firms and attorneys manage their cases more efficiently by automating routine tasks, **tracking** deadlines, and **providing real-time** update

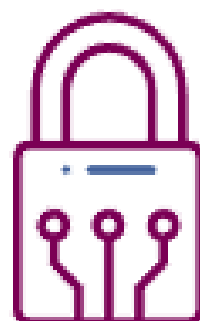

.09

IMPROVED SECURITY

AI can help secure sensitive client data by detecting and **preventing unauthorized** access while also ensuring compliance with privacy regulations.

.10

COST SAVINGS

AI can help law firms and attorneys reduce costs by **automating routine tasks** and reducing the need for manual labour, allowing them to focus on higher-value tasks.
