

7x CORE POINTS

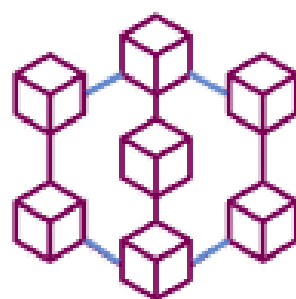

WHAT SMALL LAW FIRMS WANT FROM ARTIFICIAL INTELLIGENCE?

Unlocking Efficiency and Empowering Legal Practice:
What Small Law Firms Crave from Artificial Intelligence

.01

INCREASED EFFICIENCY

Small law firms may want AI to **streamline** their workflows and **automate repetitive tasks**, such as contract analysis, legal research, and document management. By leveraging AI, small law firms can save time and resources, allowing them to **handle more cases** or clients efficiently

.02

ENHANCED RESEARCH CAPABILITIES

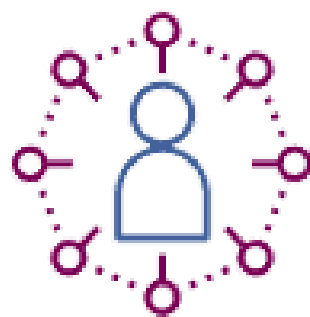

AI-powered legal research tools can help small law firms quickly **access vast amounts of legal information** and extract relevant insights. This can aid in building strong legal arguments, preparing for litigation, and **staying updated** with changing laws and regulations.

.03

IMPROVED DOCUMENT ANALYSIS & MGMT

AI can assist small law firms in analysing and managing **large volumes** of legal documents, including contracts, pleadings, and court filings. AI can help with tasks such as **document review**, contract analysis, and due diligence, allowing small law firms to **identify relevant information faster and with higher accuracy**.

.04

ENHANCED
LEGAL ANALYTICS

Small law firms may want AI to help them analyse data and **extract actionable insights to make informed decisions**. For example, AI-powered analytics tools can assist in predicting case outcomes, **identifying legal risks**, and providing data-driven recommendations to clients.

.05

CUSTOMISED SOLUTIONS

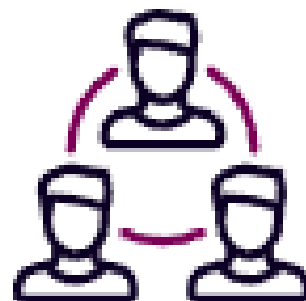

Small law firms may want AI solutions that can be **tailored to their specific needs and practice areas**. Customized AI tools can be developed to suit the unique requirements of a small law firm, providing relevant and meaningful results that **align with their practice areas and client base**

.06

ENHANCED CLIENT SERVICES

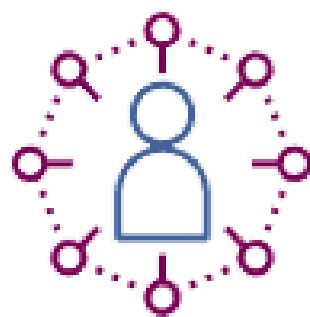

AI-powered chatbots and **virtual assistants** can help small law firms provide 24/7 customer support, answer frequently asked questions, and **provide initial legal advice**. This can enhance client services and improve client satisfaction, while also **reducing the administrative burden** on the law firm.

.07

COST EFFECTIVENESS

Small law firms may want AI solutions that are **affordable and provide good return on investment**. Cost-effective AI tools can help small law firms access advanced technologies without incurring exorbitant costs, allowing them to compete with larger law firms and **stay competitive in the legal market**.

A faint, light gray world map is visible in the background of the slide.
